

NPX TT

Product sheet

NPX TT is the dedicated power supply for the NVC TT, allowing the NVC TT to connect to legacy and third party Hi-Fi systems. The NPX TT is also an optional upgrade for the NVC TT when connected with the New Classic 200 & 300 Series, enabling the phono stage to reach its full potential.

Key points

- Instant power supply improvement for NVC TT
- Provides a superior power supply.
- High quality manufacturing.
- 0.5W standby power

Using two internal power supplies; one is a high quality audiophile linear type, based on a large toroidal transformer. The other is a highly efficient SMPSU for 0.5W power consumption in standby during standby mode.

- Makes the NVC TT compatible with preamplifiers that cannot feed the NVC TT via Type 1 cable.

Specifications

Type	Power Supply (for NVC TT)
Power supply output	Type 1, Type 2
USB	Micro USB socket (for updates)
Naim Logo	White illuminated
Logo brightness	High, medium, low
Standby power consumption	<0.5W
Mains supply	110 to 120V, 220 to 240Vac
Dimensions (HxWxD)	2 ³ / ₄ x8 ³ / ₈ x13" (7x21.4x33cm)
Weight	12.35lb (5.6kg)
