

# Fifth-generation Majik DSM

Category-leading all-in-one network music player

## INTERNAL USE ONLY

In its new form, Majik DSM raises the bar in its category, both in build- and sound-quality. Developed by the same team, and made by the same technicians and machinery as our most recent flagship products, Majik DSM is an accessible and essential distillation of the best Linn can offer.

With its stylish design, improved build quality, unmatched usability — and by outperforming all competitors in an increasingly wide field — Majik DSM is the most entrancing proposition for those new to the world of genuine high-performance home audio.

It's one serious piece of kit: industry-leading DS streamer, pre-amplifier, DAC, and power amplifier—with all the connectivity your customers will ever need—all in one.

## Key points

- Updated integrated amplification introduces a post-filter feedback loop for lower distortion and greater efficiency
- DAC with in-house precision clocking and upsampling
- 24bit/384kHz and DSD 256 compatibility
- Precision-punched and -folded aluminium chassis for superb rigidity and isolation
- Solid steel feet reduce vibration
- Cut-glass rotary control dial
- MM, MC and 2x pairs Line Level inputs
- Space Optimisation built-in
- Exakt Link
- Subwoofer Out
